

### Pradhan Mantri Kaushal Vikas Yojana (PMKVY)

Pradhan Mantri Kaushal Vikas Yojana (PMKVY) is the flagship scheme of the Ministry of Skill Development & Entrepreneurship (MSDE). The objective of this Skill Certification Scheme is to enable a large number of Indian youth to take up industry-relevant skill training that will help them in securing a better livelihood. Individuals with prior learning experience or skills will also be assessed and certified under Recognition of Prior Learning (RPL). Under this Scheme, Training and Assessment fees are completely paid by the Government.

The Short Term Training imparted at PMKVY Training Centres (TCs) is expected to benefit candidates of Indian nationality who are either school/college dropouts or unemployed. Apart from providing training according to the National Skills Qualification Framework (NSQF), TCs shall also impart training in Soft Skills, Entrepreneurship, Financial and Digital Literacy. Duration of the training varies per job role, ranging between 150 and 300 hours. Upon successful completion of their assessment, candidates shall be provided placement assistance by Training Partners (TPs). Under PMKVY, the entire training and assessment fees are paid by the Government. Trainings imparted under the Short Term Training component of the Scheme shall be NSQF Level 5 and below.

### Present Scenario of Vocational Education, Training & Skill Development in Relation to Industry

As compared to countries such as Korea where over 90% of the workforce is vocationally qualified, India has only 5- 7% of its workforce vocationally trained or qualified. Most skills obtained by workers are through an informal training system such as family inheritance or "guru-shishya parampara". As a result, it is very difficult to measure the competencies of skills or create any standards of competency levels. Inability to measure competencies or establish any standards for occupation to skill mapping makes it difficult for industry to associate optimal wages for skills of workers.

S. No.	State Sector Specialization/Job Role	Approved Intake	Eligibility/Requirements
1.	Telecom-Sub-Sector-Handset Broadband Technician (EC Department)	25	As per Norms / Candidate with High School / Intermediate qualification (Art / Commerce / Science) Aadhar Card, Voter ID / PAN Card, Age Proof, Bank Account Passbook can be enrolled.
2.	Automotive Customer Relationship Executive (MBA Department)	25	
3.	Construction Mason Concrete (Civil Engineering Department)	25

## IEC-GI's PMKVY Training Centre

"Today's Accomplishment is Tomorrow's Asset" with this idea and attitude "Vocational Education Foundation" had established PMKVY Training Centre at IEC-GI with mission and philosophy to impart Skill Development education and training. Besides, IEC-GI through its Skill Development Training Center provides students with an opportunity to study vocational courses which comprise of deep integration modules within the industry of their choice. A certification of being job-ready along with a regular course degree enables the students to hit the ground running on the first day of their job. We have been tapping our vast industrial relations to provide fast growing career to our skilled & trained students. In the service of our nation, we are also encouraging our students to take up entrepreneurship and thus become job creator instead of being job takers.

IEC-GI's PMKVY Training Centre has been established under aegis of National Skill Development Corporation (NSDC), which would skill 10 million people across all states by 2022. Our Centre will take all possible initiatives to target youth from under-served sections of society and work towards mobilizing, training, employing and hence empowering them with a chance towards a brighter future. We take immense pride in being the learning partner to the nation, its people and its industry. A partnership that could just be integral to India's successes in the time to come.

## Infrastructure Facilities @ IEC School of Vocational Studies

### Laboratories : Available as per PMKVY programme requirements

#### Central Computing facility

Computer centers at IEC-GI have more than 850 computers Systems with central power back up and available to students at least 12- 14 hours every day. A strong maintenance support is provided to the computer center so that at least 90- 95% systems are up all the time. The central computer center is housed in an air -conditioned building to provide suitable ambience.

#### Central Library

Wealth of knowledge will be available in the library in the form of text- books, reference books, career guidance material, research journals, back volumes, general reading material, CDs, digital library section, audio- visual section, internet section, reprographic section. It has environment conducive for studies & learning. The library has 7 sections namely :- Stack Section, Reference Section, Digital Library Section, Reading Room, Audio- visual section, Research section and Issue –return section. All the library activities is fully computerized and automated.
